My dear Mrs Manley:

It affords us great pleasure to grant your organization the opportunity to become a member of the Negro Major American and National League Baseball Teams Inc.

We have wrote you several times on this matter, which we deem very important to you. This is absolutly your last chance to become a member and a franschise holder in our organization. Bear in mind we did not organize to destroy, Negro baseball, but to build it on a sound legal foundation. It have been said by some of the white major league team owners, for the Negro team owners to put their own house in order and establish his own Negro major leagues first on and ethical operation basis.

The above organization have been trying to prepound these things in to the minds of the Negro team owners for the last two years. We have the first and the only Negro major league baseball corporation ever to be organize in the history of the United States, where by the Negro can establish themselves on a sound basis, as Col. MacPhail was talking about.

If you do not make your decision to except this chance the above organization is offering you, for their last time. I am sure you will lose your baseball investment. We apperciate your early reply.

Very truly yours

The Negro Major Leagues Inc.

President
